The Australian Centre on China in the World is an initiative of the Commonwealth Government of Australia and The Australian National University

As China becomes wealthier and more confident on the global stage, it also expects to be respected and accommodated as a major global force — and as a formidable civilisation. Through a survey and analysis of China's regional posture, urban change, social activism and law, mores, the Internet, history and thought — in which the concept of 'civilising' plays a prominent role — *China Story Yearbook 2013* offers insights into the country today and its dreams for the future.

Chinese football fans, Guiyang, June 2011.
